

bigblue[®]
THE BRIGHTER IDEA

RED SPOT LIGHT

Operate with
2 x AAA batteries

Maintenance and Transportation

- After each dive, always rinse with fresh water. If the diving light and the battery will not be used for a prolonged period of time (more than a month), remove the battery from the light.
- In rare cases of flooding, discontinue use. Turn the light off immediately, disconnect the battery, and rinse with fresh water. Let the component dry completely, and return it to BigBlue for service.
- Flooding damage cannot be repaired on site

Clean the light and Lubricate the O-Ring

- For good practice, put the light into fresh water for few hours after every dive.
- Dry it out and put the silicone crease on the O-Ring. Ready for other dive.

Limited Warranty

1. BigBlue guarantees the proper operation of this product by the original retail purchaser under normal and intended use.
2. This warranty applies only to the original retail purchaser, which does not cover commercial or rental use, and it is not transferable to third parties.
3. If the original retail purchaser detects defect in the materials or workmanship, return the product together with proof of purchase, including the date of purchase to an authorized BigBlue dealer or BigBlue.
4. The warranty covers a period of up to one year from the date of purchase. Warranty for rechargeable battery pack is valid for six months only.
5. This limited warranty is in lieu of all other warranties. No other person or party is authorized to assume for BigBlue any other liability in connection with the sales of this product.
6. This warranty will be voided if the product or any of its parts have been tempered with, repaired, modified, transformed, adapted, or damaged without authorization by BigBlue.
7. This warranty does not cover parts subjected to normal wear and tear, including and is not limited to the following: O-ring, battery pack, front glass (surface scratch or damage on impact).
8. This warranty does not cover damages due to impact, used in chlorinated or polluted waters, and extended exposure to heat sources.

Technical Specifications

Light source	: Red Laser
Light output	: Below 1 mW
Casing material	: Aluminum alloy. Anti-corrosive anodized
Power source	: 2 x AAA alkaline or Ni-MH batteries
Wavelength	: 650nm
Burn time	: Up to 24 hrs
Maximum depth	: 100 m tested
Size :	Dia. 19 x L. 154.1mm
Weight in air	: 82g (including batteries)
Buoyancy in seawater	: -51g (including batteries)
Switching system	: Twisting Bezel
Front glass	: Tempered optical glass
Lanyard	: Included
